**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. The amendment filed February 25, 2002 has been received and entered.
2. Claims 1-19 are currently pending.

### *Election/Restrictions*

3. Applicant's election of Group I, claims 1-17, thyme oil (including thymol) for species A, and *Ralstonia* for species B in Paper No. 7, dated February 25, 2002, is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
4. Claims 3-5, 11, 12, 18 and 19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention and species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.
5. Claims 1, 2, 6-10, and 13-17 are examined on the merits.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 16 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims are indefinite because they depend from themselves.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1, 2, 6-10, and 13-17 are rejected under 35 U.S.C. 102(a) as being anticipated by Momol et al. (Phytopathology (June 2000), vol. 90, no. 6, pp. S127).

The claims are drawn to a method of controlling the plant pathogen *Ralstonia* using thyme oil or thymol.

Momol teaches using thyme oil and thymol to control *R. solanacearum* on tomato plants. The oil can be used as a fumigant.

8. Claims 1, 2, 6-10, and 14-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Momol et al. (Phytopathology (June 1999), vol. 89, no. 6, pp. S54).

Momol teaches using thyme oil and thymol to control *R. solanacearum* on tomato plants.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1651

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

9. Claims 1 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Momol et al. (Phytopathology (June 1999), vol. 89, no. 6, pp. S54).

As stated above, Momol teaches using thyme oil and thymol against *R. solenacearum*. However, this article does not specifically teach using the thyme oil or thymol as a fumigant.

It is well known in the art that pesticide oils can be used as fumigants. Therefore, a person of ordinary skill in the art would reasonably expect that the pesticides taught by Momol could be used in the form of a fumigant. Thus, an artisan of ordinary skill would be motivated to use thyme oil and thymol as pesticide fumigants.

10. No claims are allowed.
